Why Join CVCA?

Part-Time and Full-Time Nationwide Opportunities for Board-Certified or Board-Eligible Cardiologists

Since 1987, CVCA Cardiac Care for Pets has been offering board-certified veterinary cardiology services to more than 24,000 clients per year—more than any other cardiology practice nationwide—with over 99% of our clients highly recommending us to family and friends.

Who We Are

CVCA is a value-driven, independently owned organization committed to an exceptional work environment. Our culture is unsurpassed in the veterinary industry. Every CVCA member supports one another and is committed to offering optimal patient care, providing superior services to our referring veterinarians, and collaborating with our associated services departments.

Our goal for each cardiologist:

- To be successful at work as evidenced by the ability to deliver a high level of care and service
- Maintain an outstanding quality of life

Benefits of Joining CVCA

Amazing Culture

- Independently owned – we are run by, and for, our team
- Fun, collaborative environment that welcomes and encourages your voice, opinions, and ideas
- Work-life balance:
 - 4-day or fewer work week
 - Weekends and holidays off
 - Schedule flexibility
 - Generous vacation time and coverage so you can truly relax
 - Volunteer time provided

Employee Testimonials

- 44

I am so happy to be a part of the CVCA team and help our patients during this difficult time!

I've worked in countless other animal hospitals and while I've never worked through a pandemic with them, the **kindness, support, and overall care CVCA** has for their employees are far superior. I am fortunate to work for such an amazing company!

I feel **very proud** to be a CVCA team member.

Thank you all for your
continued support for
all of us through
this crazy time.

The amount of **time and dedication** the **leadership of this company** has put into making sure that we are **safe and healthy** during this time speaks volumes.

Making the move to be a part of CVCA has been one of the **best decisions I have ever made in my career.**

I tell everyone all the time **how lucky we are to have an administration that cares so much about their employees and goes above and beyond to support them.**

I want to thank you so much for having **the best work environment and supportive team/company** I have ever worked with

I've never experienced the type of care CVCA has for its employees in any other job I have worked.

Resident Test Prep

Last activity on April 19, 2021 2:02 pm

[Participants Register Here!](#)

Welcome to the Resident Test Prep Platform!

Here you will find bi-monthly exam-type questions, in the **course content** section, varying from ECG and echo interpretation to short answer/essay on varying cardiology topics. Simply attempt to answer the questions, correctness is not graded, and answers will be provided so you can self-assess. You work at your own pace without deadlines.

Earn as you learn! Make sure to check the **leaderboard** to track participation. The most active participants advance on the leaderboard and earn prizes for participation!

Reminders: Beginning February 1, 2021:

- Register and create a login to participate
- Questions will be available at 8 a.m. EST on the 1st and 15th of each month.
- Answers to the questions will be available on the 10th and 25th of each month
- Reminder emails and information will be sent out on the 1st of each month
- A survey will be sent out on April 1st for your feedback on this new platform.

Questions? Reach out to us at any time:
marketing@cvca.com

Thank you, CVCA Cardiac Care for Pets

Answer - Feb. 25th - EKG 1

Question: Feb. 15th - EKG 1

Question:

12 lead electrocardiogram recorded from a 6 year old female spayed Labrador Retriever using the modified Wilson clinical system (20 mm/sec, 10 mm/mV). Interpret the ECG and give your ECG diagnosis. Give proposed physiologic mechanism for why this rhythm may be seen.

Answer Here:

There is no limit to the characters allowed in the box below, be as thorough as you'd like!

Type your response here.

Resident Test Prep Monthly What's What

Kick-off of Resident Test Prep Platform

We are excited to have you participating on our new Resident Test Prep platform!

We're honored to be able to support residents in cardiology, particularly during this challenging year. We always welcome feedback on ways we can improve upon what we are offering. In April, we will be sharing with you a short survey to get your feedback and input on this new platform.

This is CVCA

CVCA and American Heart Month

CVCA celebrated American Heart Month in February a number of ways:

- sent thank you gifts to the top referral clinics for each CVCA location
- sent thank you gifts to our facilities associated services thanking them for working with us on client care throughout the year
- educating pet owners on veterinary cardiology with fun social media quizzes where they can win prizes
- and celebrating with our teams by doing an annual Wear Red Contest. Each location chooses a theme, selects decorations and we share photos on social media for our followers to vote and pick the top 3 location winners! The winners receive prizes they can use for staff lunches, a coffee run, and more!

Earning Leaderboard Points

- **Leaderboard capturing participation**
 - For the leaderboard to capture your participation, the platform requires you to write an answer in the essay box.
 - For example:
 - CVCA ❤️ - ok, we might be a little biased 🤪
 - Your name
 - Your pet's name, etc.
 - Is it too late to earn leaderboard points for February questions already posted?
 - No. We encourage you to go back to the questions and write in the essay box so you earn those leaderboard points! 🤪
- **Monthly reminders**
 - Questions post at 8 a.m. EST on the 1st and 15th of each month

Resident Test Prep Monthly What's What

Welcome Back!

It's April 1st and we are excited to have residents continue to join and participate on the Resident Test Prep Platform! A few quick notes:

- **Tech Support**
 - Accessing Course Content
- **Survey**
 - We want to hear from you!
- **This is CVCA**
 - Benefits of Headspace App for CVCA employees
- **Leaderboard Stats**
 - Who's in the lead?
- **Welcome to our Viewing Theatre**
 - We hope you find it beneficial and we want to hear from you and we are asking you to complete a very quick survey, listed in a section below

Tech Support

Tech Support for Course Content on Resident Test Prep

LearnDash, the software program we use for the Resident Test Prep, recently did an upgrade preventing some residents from accessing the Course Content. This has been fixed.

As a precaution, instead of refreshing your page, it's best to do a hard refresh on your browser with **Ctrl + F5**.

Any glitches, please reach out to patrickboy@cvcavets.com

CVCA Research Involvement

CVCA Cardiac Care for Pets is the cardiology industry leader in collaborating with industry partners and universities on studies to help in the advancement of care for the cardiology patient. Our team of board-certified veterinary cardiologists and residents has access to valuable data from the more than 24,000 cardiac patients we see per year to help further the advancement of veterinary cardiology and translational medicine.

Boehringer Ingelheim

EPIC Trial

- Future participation:** Studies planned to evaluate the efficacy of therapy in the management of mitral valve disease and dilated cardiomyopathy.
- Past publications:** Temporal changes in clinical and radiographic variables in dogs with preclinical myxomatous mitral valve disease: The EPIC study, UVM and Effect of Piroxicam in Dogs with Preclinical Myxomatous Mitral Valve Disease and Cardiomegaly: The EPIC Study-A Randomized Clinical Trial (UVM)

Collaborative Research Agreement with Virginia-Maryland College of Veterinary Medicine/VA Tech

LOOK Mitral Study

- Largest database of canine mitral valve disease (Longitudinal Outcomes Of K9 Mitral Valve Disease-LOOK Mitral Study)
 - 6,235 dogs entered into a minable database
 - Examining all aspects of these patients including comorbidities, treatments, and survival
 - Predictors of reoccurrence of congestive signs within 180 days after successful treatment
 - episodes of congestive heart failure in dogs with myxomatous mitral valve disease (abstract December 2020)
- Additional manuscript submitted for publication; acceptance pending
- Online access to VM Tech Library system
- Access to PhD statistician help with CVCA research
- Additional collaborative studies are in planning stages

Drug Trials

FDA Trials

CVCA has participated in numerous FDA trials to include piroxicam, Cardalis[®], levetiracetam, escitalopram, and enalapril.

Imago

CVCA is working with this company to see if their technology may be applicable to veterinary cardiology.

Irish Wolfhound Foundation

- Ongoing research with echocardiography, atrial fibrillation, ventricular ectopy, genetics, and ECG
- Collaborative genetics work with Dr. Stern's lab at UC Davis
- Past Publications:** "Echocardiographic and electrocardiographic evaluation of North American Wolfhounds" (JVM); "Pedigree analysis of atrial fibrillation in Irish Wolfhounds supports a Mendelian mode of inheritance" (Canine Genetics and Epidemiology); "NT-proBNP as a screening marker for Irish Wolfhound type cardiomyopathy and atrial fibrillation" (Abstract)

Purina

CVCA was a participant in the CARMINE study to see if a novel dog food formulation may delay the progression of canine mitral valve disease.

United States Food and Drug Administration

CVCA worked extensively and its veterinarians on multiple cardiomyopathy issues with the FDA.

Current/Ongoing Research

- Addition of the Novel Factor: The ANATOM
- Arrhythmogenic Right Ventricle: Progression, and Outcomes
- Echocardiographic Effects of Diet
- Diet Pharmacokinetics
- The Effects of Subcutaneous
- Use of the BMD-ECG
- Dr. Jesse Miller
- Unpublished: Need SS Resident Study

Collaboration with Other Universities

"The HAMLET Study" has been presented at ACVIM and submitted to JAVM. This study determined the accuracy of history, physical examination, biochemical parameters and biomarkers to identify dogs with stage B2 degenerative mitral valve disease.

"Determining the Accuracy of History, Physical Examination, Cardiac Biomarkers and Biochemical Variables in Identifying Stage B2 Degenerative Mitral Valve Disease." JAVM submission

Collaboration with Dr. Kate Meurs on "Inherited Ventricular Arrhythmia Gene (RRF1A)." Case material was submitted for this and other genetic studies at NC State College of Veterinary Medicine, including the identification of the Rhodesian Ridgeback malignant ventricular arrhythmias and identification of The Ragdoll HCM mutation, known as R820M.

"Ventricular arrhythmias in Rhodesian Ridgebacks with a family history of sudden death and results of a pedigree analysis for potential inheritance patterns." JAVMA and "A QTL Variant Associated with Ventricular Arrhythmias and Sudden Cardiac Death in the Jurelle Rhodesian Ridgeback Dog." Genes

Collaboration with Tufts University for "Can Diet Play a Role in Feline DCM" (publication pending)

Collaboration with Industry

- Ongoing collaborative work with IDEXX Laboratories in the validation of their NT-proBNP assay in both the feline and canine canine breeds like the IWH and Great Dane
- Current support of the HUS/Endark DCM trial to obtain DNA samples from a large number of different canine breeds with dilated cardiomyopathy

Dear ACVIM Cardiology Candidates

As we begin 2021, we hope the trials and tribulations of 2020 and the novel coronavirus will soon be behind us. CVCA Cardiac Care for Pets, the largest board-certified veterinary cardiology practice, understands the stresses that all of you are under for examination preparation along with your residency and life responsibilities. We also know some of you are faced with the arduous task of taking both the General and Certifying Examinations within a month of each other.

To support you with these stresses, CVCA has developed for the first time a **low-cost, non-graded, Resident Test Prep Platform with exam-type questions** to help you prepare for exams. Simply attempt to answer the questions; correctness is not graded, and answers will be provided so you can self-assess. The bi-monthly questions will vary from ECG and echo interpretation to short answer/sketch on varying cardiology topics. You work at your own pace without deadlines.

We have included a fun leaderboard to track participation so we can award gift cards to the most frequent participants.

Beginning February 1st, 2021:

- Register at <https://www.cvcanet.com/sources/resident-test-prep/>
- Create a profile and login
- Questions will be available at 6 a.m. EST on the 1st and 15th of each month
- Answers will be available on the 10th and 25th of each month
- Reminder emails and information will be distributed on the 1st of each month
- A survey will be sent out on April 1st for your feedback on this new platform

We look forward to your participation. Questions, feel free to reach out to us at anytime at marketing@cvcanet.com.

Sincerely, CVCA Cardiac Care for Pets

☐ Email ☐ Fax ☐ Website ☐ Colleague ☐ Other (please specify): _____

3. Which of the following were important to you when you signed up for this CE? (check all that apply)

☐ Staff training ☐ Protocol implementation ☐ CE credit ☐ Relationship with CVCA ☐ Other (please specify): _____

4. How many times per month do you refer a patient in your practice?

☐ 0-2 ☐ 3-5

CVCA
Cardiac Care for Pets
www.cvcavets.com

Why CVCA

Heart disease in pets can often remain hidden until advanced stages but with early diagnosis and appropriate treatment, pets can live a longer, healthier life.

Expert Care for Your Patients

- CVCA Cardiac Care for Pets has been the leading choice for veterinary cardiology since 1987. **We see over 24,000 patients per year** – more than any other board-certified veterinary cardiology practice worldwide.
- Largest practice of board-certified veterinary cardiologists** with routine case reviews and team approach to case management.
- ACVIM credentials reflect 3-5+ years of cardiac-specific training for board-certified cardiologists.**

Exceptional, Compassionate Service

- Over 99% of our clients would recommend us to a friend or family member.**
- Initial consultation includes a full cardiac workup by a board-certified cardiologist:
 - Blood pressure
 - Review and interpretation of medical history, radiographs and lab work
 - Echocardiogram by board-certified cardiologist**
 - Owners accompany their pet for echocardiogram
 - Ample time with each family for a comprehensive discussion** on all aspects of the management of your cardiac patient, including:
 - Treatment options and prognosis
 - Diet and nutritional supplements
 - Activity levels
 - Anesthesia risk management
 - Options for medicating
 - Immediate diagnosis

Exceptional Value, Payment Flexibility

- 85% of our patients receive a full cardiac workup, including treatment options and prognosis, in the range of the mid-\$600s. While the remaining patients may require additional diagnostics, almost all clients have a total cost below the mid-\$700s.
- Flexible payment options include:** All major credit cards, checks, cash, Payment Banc, and 6-month deferred interest with CareCredit.

Accessibility

- 24/7 Availability by phone:** A cardiologist is available by phone 24 hours a day, 7 days a week to emergency and primary care veterinarians for assistance with patient care.
- Availability for **same day urgent cases.**

Partners in Care

- Partnership for optimal outcome and care:** Patients with congestive heart failure **live 75% longer when co-managed** by a CVCA board-certified veterinary cardiologist and their primary care veterinarian.
- Collaboration with Primary Care Veterinarian:** CVCA is committed to ensuring ongoing communication and repeat client visits with you, including ongoing follow-up communication regarding your patients.

Leading-Edge Diagnostics and Treatments

- CVCA doctors have **extensive training in the proper techniques and interpretation of echocardiograms**, and other cardiac diagnostics – resulting in higher accuracy in imaging and measurements for the best chance of successful treatment for patients.
- Top of the line **Philips pediatric echocardiography units** maximize the latest technology and software for accurate measurements, and images, and is geared for the higher heart rates of our pets.
- CVCA also offers **opportunities to participate in cutting-edge cardiac drug trials and research**, providing more opportunities for treatment for your patients.

Board-Certified Veterinary Cardiologists in 2 Austin Locations

Top 3 Frequently Asked Questions

- 1 Does it take 3-4 months to get an appointment with CVCA?**

No. We are excited to have three board-certified veterinary cardiologists, in 2 Austin locations, available to see cases within 1-2 weeks. And, we always have availability for same-day urgent cases and can work with you to get patients seen sooner if required.
- 2 Does a CVCA board-certified cardiologist do a full cardiac workup, including echocardiogram, with the client and pet in the room?**

Yes. This has been our business model since 1987. We have found it beneficial for clients to be in the room so they can receive an immediate and accurate diagnosis and treatment plan.
- 3 What does the cost of an appointment with CVCA include?**

 - 85% of our patients receive a full cardiac workup by a board-certified cardiologist, including treatment options and prognosis, in the range of the mid-\$600s. While the remaining patients may require additional diagnostics, almost all clients have a total cost below the mid-\$700s.
 - 24/7 Phone Support Availability:** A board-certified cardiologist is available by phone, 24 hours a day, 7 days a week, for emergency and primary care veterinarians.
 - Clients may contact the office with any questions, concerns, and potential side effects of drugs, or if the patient is not doing well.
 - CVCA continues to work with primary care veterinarians, for interpretation of future lab work, x-rays, ECGs, etc.

3 Board-Certified Veterinary Cardiologists

Why CVCA Flyer

Top 3 Questions Flyer

Meet Jennifer Welter, CVCA's newest resident

Jennifer Welter, DVM, Resident in Cardiology

Introducing Dr. Welter! We are excited to welcome Jennifer to our office inside of The LifeCentre in Leesburg, VA. Jennifer is a great addition to our team and is committed to a partnership with family veterinarians in offering the highest level of care and service to our clients and their pets.

Jennifer graduated with a Bachelor's degree from

Meet Dan Stern, a CVCA Resident in

Dan Stern DVM, Resident in Cardiology

Dr. Stern received both his Bachelor of Science (BS) and graduated in the College of Veterinary Medicine from Michigan State University. He then went onto Oregon State University to complete his rotating internship. After completing his internship, he moved back to Michigan and worked in general practice before starting his residency. Dan has loved cardiology since veterinary school, and he is excited to continue his training at CVCA Cardiac Care for Pets.

Outside of work, Dan enjoys any type of physical activity and spending time with family and friends. He looks forward to living in the Annapolis, MD area with his wife, Molly and their retired racing greyhound, Rocky.

VIRGINIA - Fairfax | Leesburg | Richmond | Springfield | Vienna
MARYLAND - Annapolis | Columbia | Frederick | Gaithersburg | Rockville | Towson

Meet Jesse Miller, CVCA's newest resident!

Jesse Miller, VMD, Resident in Cardiology

Introducing Dr. Miller! We are excited to welcome Jesse to our office inside of the Pet E.R. in Towson, MD and the Chesapeake Veterinary Referral Center in Columbia, MD. Jesse is a great addition to our team and is committed to a partnership with family veterinarians in offering the highest level of care and service to our clients and their pets.

Jesse graduated with a Bachelor's degree from St. Mary's College of Maryland with a major in Biology. He then attended the University of Pennsylvania in Philadelphia, PA for veterinary school. After graduation, he completed a one-year small animal rotating internship in San Antonio, TX. Jesse's cardiology interests include the long-term management of degenerative valve disease, congenital heart disease and interventional cardiac procedures.

Dr. Miller is excited to be back in the Maryland area. In his free time, Dr. Miller's interest include lacrosse, hockey, exercising, playing guitar, reading, trying coffee shops and breweries, and he loves spending time with his cat, Penny. He looks forward to exploring the Baltimore area and completing his residency with CVCA!

Happy Heart Month! We have been through quite a year together! The pandemic and resulting excessive demand on veterinary professionals has certainly taken its toll on all of us. We should all be proud of having continued to provide care for people and their pets during such a complicated and difficult time. Our thoughts are with all of you as we navigate the next few months, and we are hopeful that things will improve for all of us in the coming year. We are truly grateful for your continued support and collaboration in order to provide the best care for our patients.

Best,
Katie (Newbold) Brooks, CEO

OPEN FOR BUSINESS BOARD-CERTIFIED CARDIOLOGY

Attn: Primary Care Veterinarians,

In the wake of the COVID-19 pandemic, CVCA plans to remain open to offer our **board-certified cardiology services** with altered protocols designed to keep within the Centers for Disease Control (CDC) and World Health Organization (WHO) guidelines regarding the transmission of COVID-19, to be followed until recommendations are no longer in place. We are doing all we can to ensure the safety of our clients and our team.

COVID-19 client protocols can be found on our website at
www.cvcavets.com/covid19

Available Payment Options

In the midst of this crisis, we know how difficult medical expenses for a pet. We offer services and PaymentBanc for qualified applicants.

Thank you for your patience and understanding.

NOW OPEN SATURDAYS, INCLUDING M-F – #ESSENTIALBUSINESS

As an #essential business during the COVID-19 pandemic, CVCA remains **OPEN FOR BUSINESS** at both our Austin, TX locations. And, we are **NOW OPEN SATURDAYS** at our CVCA location inside Austin Veterinary Emergency & Specialty Center (AVES). Safety remains a top priority for us and that's why we have made immediate changes with **NEW CVCA COVID-19 CLIENT PROTOCOL** for appointments.

In addition, we have reviewed Governor Abbott's Latest Executive Order and addressed some potential questions and/or concerns below.

Introducing Julie Andrie, DVM, DACVIM (Cardiology)

CVCA Austin's Third and Newest Board-Certified Cardiologist
Joins

Katie Meier, DVM, DACVIM (Cardiology) and Sara Beth Bordelon, DVM, MS, DACVIM (Cardiology)

Introducing Dr. Andrie! We are excited Dr. Andrie is joining our Austin, TX teams from our Northern Virginia area during her three-year residency where she was so loved, to expand our availability inside of Austin Veterinary Emergency & Specialty Center (AVES) and inside of VCA Capital Area Veterinary Specialists.

Dr. Julie Andrie, originally from a small town in Western Pennsylvania, graduated from the University of Pittsburgh with a Bachelor's degree in Rehabilitation Science and a minor in Chemistry. She received her Doctor of Veterinary Medicine degree from Ross University School of Veterinary Medicine in St. Kitts. She completed her clinical year at Oklahoma State University. After graduation, Dr. Andrie completed a one-year rotating internship at Kansas State

Specialty Center (AVES)

ns to pet owners?

If it is your primary care veterinarian's or your opinion that your pet is stable, we will be happy to reschedule your cardiology appointment to a later date. If you would like to further discuss delaying your pet's recheck evaluation with CVCA, please feel free to email us or use the **Reschedule An Appointment** form.

As you can imagine, it is very difficult to assess the apparent stability of our cardiac patients over the telephone or via email. Please know our team of doctors and technical staff are taking recommended precautionary measures. **NEW CVCA COVID-19 Protocol** so that, your, your clients and their pets, and our team remain safe and healthy.

CVCA Cardiac Care for Pets is excited to announce the opening of our second Austin, Texas location on Tuesday, April 30th!

Katie Meier, DVM, DACVIM (Cardiology) will be seeing patients

- 9:00AM–5:00PM - Mondays
- 9:00AM–5:00PM - Tuesdays
